Wessex Completes Sale of Abingdon Health & Rehab Operations

Cash flowing operations lead to successful exit

Charleston, SC – Wessex Capital Investments, LLC is pleased to announce the sale of its ownership position in Abingdon Health & Rehab Center’s operations. Abingdon Health & Rehab is a 120 bed skilled nursing facility located in Abingdon, Virginia. Opened in June 2012, the facility provided a much needed service to the community. Maintaining occupancies over 90%, the operations were cash flowing and the successful exit provided an attractive return to investors. This transaction marks one of the last asset exits from Fund V and represents another positive outcome for our investors.
